Mission Statement

The Niagara Speed Skating Club is committed to providing coaching and mentoring to all ages of speed skaters whether their focus is competitive or recreational in nature. Our focus is on assisting individual goal achievement and a healthy lifestyle with an emphasis on personal enjoyment.

Short Track Speed Skating

Speed Skating is an exciting and fast sport done on a regular sized ice rink in an arena.

Speed skating can be done at any age and at any ability.

Racing quickly becomes a key component of speed skating. Throughout the season there are opportunities to race at regional series events and with increased skill and times, skaters may advance to provincial series events.

Speed skating can be for those looking for a fun recreational sport, cross training or fitness. It can enhance hockey and figure skating skills.

Members skate on Speed Skates with blades ranging from 35-45cm in length. The club has many speed skating skates of varying sizes for rent. Skaters may eventually choose to purchase their own skates.

The Niagara Speed Skating coaches are certified NCCP Speed Skating Coaches.

Niagara Speed Skating Club is a proud affiliate of the Ontario Speed Skating Association and Speed Skate Canada.

Skate fast, turn left

Speed Skating is an Olympic Winter Sport

The Niagara Speed Skating Club has been established since 2003 and has been supported by the Ontario Trillium Foundation.
